

The Remarkable, Removable Passenger Armrest

Finally, Comfort, Support and a Feeling of Security for the Passenger!

Sit Back and Enjoy the Ride.

■ It's Time to Relax Back There.

Love Handles Motorcycle Passenger Armrests give your passenger something solid and secure (but padded and comfortable) to hold onto, instead of gripping the seat, the sissy bar or your personal love handles. And more comfort means longer rides! Two-up riding is better for you as well, because your passenger will relax and lean with the bike in turns. So, when those winds get gusty or the road gets bumpy, your passenger will feel secure and relaxed.

■ Designed to Fit Millions of Harleys, Hondas, Yamahas, Kawasakis & Suzukis

Love Handles fits the sissy bars on most bikes & trikes so they'll probably fit yours. Want to be sure? Visit MotorcycleArmrest.com or call **888-662-8884**.

■ Quick Installation

It only takes about 15 minutes to install Love Handles. Simply loosen or remove the backrest pad, secure our brackets on your sissy bar, slide in Love Handles, tighten the pad and you're done. Ready to ride.

■ Detach in Seconds for Riding Solo

Remove Love Handles (cross-tube & armrests) in seconds. Take off two acorn nuts and lift out the armrests. Or, just pivot them 180 degrees and you have an extra luggage carrier for light weight gear.

■ Built with OEM Quality Materials

We pride ourselves on quality. That's why we use chromed steel, rich black anodized aluminum and the same durable, weather-resistant synthetic leather used in the best seats.

■ Your Satisfaction is Guaranteed

We are so sure of our quality and your comfort that we'll refund your full purchase price if you return them within 30 days. We also guarantee Love Handles to be free from defects for the life of the product.

Proudly Made in Albuquerque,
New Mexico USA

Built to Fit Most Sissy Bars & Most Bikes.

■ Engineered for the Most Popular Sissy Bars

Love Handles armrests fasten to existing sissybars/backrests in minutes, using a series of unique attachments. The attachments have been engineered for each specific backrest by an award-winning motorcycle designer. They are fabricated from the highest quality materials in premier machine shops and assembled individually for you. You can customize and personalize Love Handles for the look you want.

■ Easy On & Easy Off

- Armrests pivot outward for easy-on, easy-off seating
- Proprietary Security Release System uses 50 lb. ball detent for a feeling of security when armrests "click" into the riding position

■ Highest Quality

- Made in the USA 
- Machined from aircraft-grade aluminum, rich chromed steel with chromed steel fasteners
- Beautiful weather-resistant, hand-stitched armrest pads

■ Detaches in under a minute

- Remove 2 acorn nuts
- Lift off cross-tube and armrests
- Saddle Blocks remain for fast re-installation

■ Converts to Luggage Rack

- Pivot armrests backward to the luggage-carrier position
- Secure your duffle or bag with a spider bungee or other tie-downs

Love Handles Fits These Sissy Bars & More.

As more and more riders of American and Metric bikes have asked us to make Love Handles for their motorcycles, we continually put new attachment sets into R&D. When we're satisfied with the quality & comfort, we offer them to you. Today Love Handles fits most bikes and most backrests including those shown below (and others).

Love Handles Armrests are available in designs to complement your bike ~ Classic Black, Studs, Flames, Fringe or a combination. All provide incredible comfort for your passenger. They come mostly assembled and take only 15 - 20 minutes to install with a few wrenches and a screwdriver. (Backrest not included. Sorry, no tour packs at this time).

Prices from \$327.99. Details at MotorcycleArmrest.com

It's All in the Kit.

The Kit is complete with everything you need, right down to the threadlocker!

The Love Story behind Love Handles™

Our story starts back in 1970 when two junior high school teachers, Bill and Mary, first met. Fast forward 28 years to when we got married then moved to New Mexico. We loved it, but that great old Yamaha we'd been riding in Chicago was huffin' and puffin' up the New Mexico mountains with Mary holding on for dear life!

So after many Saturdays searching at our local dealers, "Lola" entered our lives. Sort of a funny name for a big, juicy, chrome-laden Fat Boy, but you know how the old song goes, "Whatever Lola wants, Lola gets."

Same can be said for Mary, because even with a great bike, cushy seat and sissy bar, there was nothing to grip on longer rides. "Hey Honey...what we need are some armrests." So we looked around and found nothing to fit cruisers and decided to design our own. Then other riders started to ask where we got them...

...and Love Handles was Born.

After many designs, prototypes, patents and years of testing, we (and our customers) think Love Handles is just about perfect for most American and Metric cruising bikes. Easy-on and-off for the passenger, quickly detachable for the biker. A streamlined design that works with the beauty of your bike, all chrome, black anodized aluminum and the rich feel of leather.

Sit Back and Relax.

Most important of all, your favorite passenger can now relax and enjoy the ride as much as Mary does. Take it from us, that'll make it more fun for both of you. And more fun means more rides and longer rides!

Just one last thing: We created Love Handles for **comfort**. Safety is still in your hands. So keep the shiny side up and **Love the Road...Love the Ride!**

Bill & Mary
