

# Love Letters to

These are unsolicited, actual testimonials  
from Love Handles Armrest Customers.  
We hope you'll send us one, too!

"We're got married on Aug 21st and hopped on the bike for our honeymoon to the Harley Museum. Because of you guys, she was VERY HAPPY! We've ridden over 3500 miles since we bought the armrests.

Cynthia loves your armrests and enjoyed her latte in the Cup Holder. Yesterday we attended a welcome home for 130 Illinois National Guardsman who were deployed for the last 14 months in "the sandbox." She is the founder of Soldiers Guardian Angels that welcomes home the soldiers in our area. Once again thank you so very much!!"

“These Love Handles are fantastic! They are very easy to swing open as I climb on the bike. Once I am on the back seat, they make me feel secure. The Love Handles make my riding experience much more enjoyable. Thank you for a great product!”

Kim Y.  
Royal Star Tourer  
Fouke, Arkansas

=====

“I just received my Love Handles today & I want to say how happy & impressed I am with the product & your service and also how easy the armrests are to fit!”

Tony N.  
Heritage Softail  
Brisbane, Australia

“Keith installed Avynn’s “Love Handles” yesterday and all fit and worked out fine. The sun came and we tried them out. Avynn (our granddaughter) rode like she had been riding all her life.

We are so pleased with our purchase. You were exactly what we had been looking for and no one could help us. You have helped us and hopefully you can help someone else.”

=====

“My dealer who installed them said he could do it blindfolded. Took him 10 minutes!”

Steve Z.

Rocklin, California

"We had a picnic at Big Bear Lake today with our church and it was a great place to take some photos. Michelle, my wife, loves her Love Handles. She says that they make her ride much more enjoyable because they make her more comfortable and she feels safer. We are planning a trip to Phoenix for Thanksgiving because of the Love Handles we are riding. People stop us all the time to ask us about the Love Handles and we hope to send some business your way. "

"John and I love the Love Handles and we are very impressed with the quality. We are both VERY excited and hope to get in a long ride this weekend.

We would also really like the coffee cup holder!  
Thanks :-)"

"Just wanted you to know that **your service & your product are a credit to the motorcycle industry.**

Keep up the good work. **The Arm Rest made our trip to South Carolina totally restful.** And thank you for your timely delivery."

Sandy O.

=====

"This past Saturday was the first time my wife had a chance to ride and try them out. They fit the Yamaha backrest like a glove and my wife really finds them to be very comfortable."

Fred M.  
Yamaha Road Star  
Tallahassee, Florida

"Thank you to Love Handles for letting me relax thru the hairpin turns of Sedona and enjoy the scenery. I'm more at ease when the bike leans, makes me feel more secure during starts and stops. I can take photos during the ride because I'm not so involved holding on - This is me, reflected in my husband's helmet!

"We rented a Road King not set for two-up riding. The wife hated it. **But with the sissy bar and Love Handles in place, we rode 700 miles in comfort.**

Her comment? **"HUGE difference!"**

Marshall F.

"The Love Handles arrived. I must say, **I'm very impressed with quality of the chrome crossbar and black anodized aluminum components.**

I dry-assembled everything on our kitchen counter and the directions were very straight forward and easy to follow.

**I appreciate that you want to keep production in the good old US of A!!!** I wish more companies would do the same. I don't mind paying a little extra for American quality and keeping our folks employed, especially in these economic times."

John R.  
Yamaha 1300

"We just rode the length of California and I didn't have that tension in my shoulders from holding on. I could just relax and enjoy the ride."

Irene Z.  
H-D-Road Glide

=====

"Did you send another pair of Love Handles? Oh, my G-d! You should not have to. I thought you would have waited to see if the one [that got lost] makes it back. I do appreciate you went an extra mile, really.

I appreciate you efforts. We'll keep in touch...

Cheers!"

"After installing the Love Handles Friday evening, we took a nice short ride to dinner. After which Rose started talking about "taking a nice long ride somewhere but not to Vegas.!" You have to understand up to that day she would ride with me but only when she realized she "had to" in order to keep me from brooding the entire day. :o). What a difference it has made for her and I.
